

## Tool 3.1

### Lamb growth planner

Growth planner	A Est. average lambing day no.1	B Est. day no.1 of sale	C= B-A Av. age at sale (days)	D Birth weight (kg)	E Est. live sale weight (kg) 3	G= E-D Growth (kg)	G/C Growth rate (g/head/ day)
First draft lambs				4 to 4.5			
Second draft lambs				4 to 4.5			
Carryover lambs				4 to 4.5			

- 1 Use day number eg, 1 August 2005 is day no. 213 - the 213th day in a year with 365 days
- 2 = 4.5kg if mainly singles and 4kg if about 20% multiples
- 3 Multiply by 1000 to convert to grams
